

2015 *Advisors Update*

2015 is already starting to fly by, and Advisors continues to grow at a consistent pace. We have already been recognized for several prestigious awards; with Steven Meyer and Sean Clark being named to MPA Magazine's inaugural "Hot 100", which is a list of influential people in the mortgage industry. Other people who made the list include Freddie Mac CEO Donald Layton and Ben Bernanke, the Chairman of the Federal Reserve. Three Advisors Mortgage Group Branch Managers were also named "Young Guns" from the same publication, which highlights mortgage professionals under 35 years old who are

extremely successful in the industry. NJBIZ recently released its list for Best Places to Work in New Jersey, and Advisors made the list for the third consecutive year! For the fourth quarter of 2014, Advisors Mortgage was ranked second for market share in Monmouth County, NJ, coming in only behind Wells Fargo, which is a great indication of our growing local reach. We are in the running for Inc. 5000's "5,000 Fastest Growing Companies in the US" for the seventh year in a row. Advisors has opened new branches across the country, expanding the Advisors Family as far as Seattle, WA and San Diego, CA.

Steven Meyer, *President*

Luke McCann, *Branch Development*
